Community Death & Grief Care have always been a passion filled journey for Sarah. She dives into the corners with curiosity and creates a sense of open wonder that isn't often found in hard conversations. Sarah has a certain magic for bringing people closer, for sinking into the uncomfortable edges with compassion.

*"I don't think you will ever understand how your teaching, your patience and your love is feeding my soul..."*

Sarah has spoken to small and large groups. She enjoys thought-provoking discussions whether that be inside of your organization in a more interactive workshop or as a Keynote.

Her goal is always to create curiosity and wonder in hard discussions and to help people set a foundation for creating meaning in these difficult situations.

### Topics

Workplace Grief: Leading through Loss

Living with Grief

The Importance of Grieving Together

Belonging: What Death teaches us about Life

### Testimonials

*"I learned more in a 30 minutes discussion than I did in years of therapy."*

*"There has always been this hole that I thought was empty, but am seeing just how full I am."*

*"There was magic in this session. I feel this will sit with me for a very long time."*
